Why use a billing service?

- Reduce employee payroll and tax expenses.
- Reduce Workers Compensation expenses.
- Increase office work flow by reducing time consuming tasks.
- Give yourself the ability to choose what aspects of the billing you want to out source.
- Peace of mind knowing that we will work hard because we both benefit from an excellent receivable turn around.
- Flexible service options to fit your budget.
- Reports showing your accounts receivable.
- Options available for Internet based access to your practice data.
- No expensive hardware and software purchases required for some of our billing options.

Will we have to change the way we run our office in order to use the billing services?

NO, we organize the billing so it flows with your current office work flow.

Can we use our existing patient management software and electronic medical records programs?

YES, because we have a number of ways of collecting the data required to process your billing, which allows you to continue to use your current patient management software.

If we don't currently do our billing electronically, could we be set up to do so?

YES, we will walk you through the process of acquiring your submitter ID, web portal user name and password for submission to Availity.

Could our patient statements be mailed out to our patients after all insurances have paid?

YES, You can choose whether or not you would like for us to process your monthly patient statements at the same pricing structure as your insurance claims.

If we currently do everything on paper and we don't even own a computer, can this billing service still help us?

YES.

Could you help us if we currently do all our billing on paper but would like to use a computer program to do it?

YES, we have a number of options available to fit your budget, some even at no expense to you.

Is it affordable, and if so, how much does it cost for the billing services?

YES, It's a simple billing structure of 7% of your accounts receivable, for both insurance payments received and patient payments received for patient statement billing, if you have us provide that service for you. Pricing is all inclusive. We will also follow-up with insurance carriers who are slow to pay. We will also provide patient payment follow-up if the patients are slow to pay as part of the patient statement processing if we provide that service for you.
